

NCI-IDD In-Person Survey

Harbor Regional Center (HRC) Report Fiscal Year 2020-21

**NATIONAL
CORE
INDICATORS®**
NASDDDS & HSRI

Message from the California Department of Developmental Services

Mission: The Department of Developmental Services (DDS) is committed to providing leadership that results in quality services to the people of California and assures the opportunity for individuals with developmental disabilities to exercise their right to make choices.

The NCI-IDD In-Person Survey¹ (IPS) report was compiled by the Human Services Research Institute (HSRI) in accordance with Welfare and Institutions Code (WIC), Section 4571. It is an important effort to collect accurate, reliable, and valid consumer and family satisfaction measures, as well as consumer outcome data. More information about the California NCI-IDD can be found at <https://www.dds.ca.gov/rc/nci/>.

This is the fifth administration of the Adult In-Person Survey, with data collected from July 2020 through August 2021. During that time, 8,663 surveys were completed with adults with intellectual/developmental disabilities receiving at least one service beyond case management from a regional center. Due to COVID-19-related social distancing precautions, the Adult In-Person Survey was conducted virtually via video conferencing software this year. However, the data findings in this report contribute to our understanding of how California's system is performing. California can use these reports to monitor changes in the system and to guide strategic planning and quality improvement activities. Regional centers can use the data in a similar fashion at the local level.

This report does not compare California's data to the data of other states but does include the NCI-IDD Average across participating NCI-IDD states. This is because California's DDS service system is unique among states. Some of the things that make California's service system unique include:

California has longstanding statute that ensures services and supports are provided for eligible persons with intellectual/developmental disabilities.

- California's laws mandate intake, evaluation, and assessment within 120 days.
- California has a broad eligibility definition for receiving services.
- California has mandated services, including case management, with statutory limitations on caseload size.
- California's service obligations to the families needing services are, by law, from pre-conception to death.

¹ Formerly the Adult Consumer Survey

-
- California’s regional centers are, by design, autonomous in that each center has a local board of directors to best address the unique needs of each of the 21 regions.
 - Consumers or their families can call a team meeting at any time to request a change in service.

Reports like this offer DDS the opportunity to compare the results of the data across the years. System improvements will take time to identify and achieve, but this report provides valuable data and is one more tool in our continuous effort to improve services and supports to individuals with intellectual/developmental disabilities across California.

Acknowledgements

This report would not be possible if not for the 8,663 individuals who agreed to offer their time and discuss their lives in order to assist in improving the services of all people with intellectual/developmental disabilities in California. Additionally, a special mention goes to the families, friends, and staff members who participated in the survey process.

Table 137. Think about talking to your service coordinator with videoconference or telehealth. Did you like it?	123
Table 138. Have you ever talked to any health professionals using videoconference/telehealth like Skype, Zoom or FaceTime? A “health professional” could be a doctor, nurse, therapist, or specialist who provides health-related services	124
Table 139. Think about talking to health professionals with videoconference or telehealth. Did you like it?	124
Table 140. Since the start of COVID time, did you do any of the following services using videoconference technology like Skype, Zoom or FaceTime?.....	124
Table 141. If you did any services over videoconference or telehealth, did you like doing services over video conference or telehealth?.....	125
Table 142. Since COVID time started, have you talked to your service coordinator enough?	125
Table 143. Since COVID time started, have there been times when you didn’t have the help you needed?	125
Table 144. Do you need more help or reminders to wash your hands regularly during the day?.....	126
Table 145. Do you need more help or reminders to wear a mask when you go outside or to places where other people are?	126
Table 146. Is there always a clean mask for you to use when you want or need one?.....	126
Table 147. Do you need more help or reminders to stay far enough away from people when you’re out in the community, so germs don’t spread?.....	127
Table 148. Since COVID time started, have your staff used personal protective equipment (PPE)?.....	127
Table 149. Since COVID time started, have you been more worried, scared, anxious, or sad than before?	127
Table 150. Do you want help to feel less worried, scared, anxious or sad?.....	128
Table 151. Since COVID time started, have you talked to your friends and family as much as you want?	128

Quality Assessment Project and National Core Indicators®- Intellectual and Developmental Disabilities

This report contains regional center level results from California’s statewide National Core Indicators®-Intellectual and Developmental Disabilities (NCI®-IDD) In-Person Survey² (IPS) data collection from fiscal year 2020-21 (FY 20/21) in accordance with Welfare and Institutions Code (WIC), Section 4571. WIC, Section 4571 directs the Department of Developmental Services (DDS) to collect accurate, reliable, and valid consumer and family satisfaction measures as well as individual outcome data. In California, data from this project will be used to review and benchmark statewide and regional center developmental disability service system performance.³ This report shows this regional center compared to the California statewide and NCI-IDD averages. Regional centers can use this report to help guide strategic planning and monitor systemic changes.

What is NCI-IDD?

The NCI-IDD program is a voluntary effort by state developmental disability agencies to track their performance using a standardized set of consumer and family/guardian surveys with nationally validated measures. The effort is coordinated by the National Association of State Directors of Developmental Disabilities Services (NASDDDS) and the Human Services Research Institute (HSRI).

NCI-IDD has developed more than 100 standard performance measures (or ‘indicators’) that states use to assess the outcomes of services for individuals and families, including outcomes in the areas of employment, rights, service planning, community inclusion, choice, health, and safety. In 2020-21 a total of 46 states, the District of Columbia and 22 sub-state entities participated in NCI-IDD.

What is the NCI-IDD In-Person Survey?

The NCI-IDD In-Person Survey (IPS) is a face-to-face meeting conducted with a person who is receiving services from the state; it is used to gather data on approximately 60 consumer outcomes, and it is regularly refined and tested to ensure that it is valid and reliable. Due to COVID-19-related social distancing precautions, the NCI-IDD In-Person Survey was conducted virtually via video conferencing software this year. Surveyors meet with individuals to ask questions about where they live and work, the kinds of choices they make, the activities they participate in within their communities, their relationships with friends and family, and their health and well-being.

² Formerly the Adult Consumer Survey

³ Refer to the California Statewide In-Person Survey Report FY 20/21 for information about Quality Assessment Project implementation, NCI and California’s statewide results.

Not all NCI-IDD states participate in the IPS every year. Twenty-six (26) states administered the In-Person Survey in 2020-21 and submitted valid samples for reporting.⁴ Together, they collected survey responses and information from a total of 19,991 individuals.

Information contained in this report come from three distinct survey sections:

1. **Background Information.** This section consists of questions about demographics, residence, health, employment status, and services and supports. Data is generally collected from state records, service coordinator, or a combination of both.
2. **Section I.** This section attempts to determine the individual's level of satisfaction and opinions. It may only be completed through a direct meeting with the individual.
3. **Section II.** This section contains questions that are answered by a direct meeting with the individual when possible. If the person is unable to respond, a proxy who knows the person well may be used. Service coordinators are not allowed to respond to these questions on the individual's behalf.

Presentation of Data

The charts in this document, grouped by subdomain, display the regional center results alongside the weighted CA and NCI-IDD averages. The charts are followed by accessible tables containing the same information.

Many questions in the IPS allow respondents to answer a question with “middle” response like “maybe”, “sometimes” or “in-between”. Data in this report are “collapsed” data. That means that two or more response options are grouped together if they are considered to reflect a positive outcome. To see the breakout of responses for each option, please see the 2021-22 California In-Person Survey Statewide report.

The CA and NCI-IDD averages are “weighted” to reflect the regional centers’ and states’ relative population and sample sizes. We created the weights using the regional centers’ and state’s number of valid surveys and its total survey-eligible population. This way, a regional center or state that provides services to a larger number of people but uses a sample similar in size to other regional centers or states has a greater influence on the overall state or NCI-IDD average (that is, its contribution is proportional to its service population).

⁴ States that participated in the 2020-21 In-Person Survey were: Alabama (AL), Arkansas (AR), California (CA), Colorado (CO), Florida (FL), Georgia (GA), Hawaii (HI), Illinois (IL), Indiana (IN), Kansas (KS), Kentucky (KY), Michigan (MI), Minnesota (MN), Missouri (MO), Nebraska (NE), Nevada (NV), New Hampshire (NH), New Jersey (NJ), North Carolina (NC), Ohio (OH), Oregon (OR), Pennsylvania (PA), South Dakota (SD), Tennessee (TN), Virginia (VA), and Wisconsin (WI).

Regional Centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average. Some items collected from the Background Information section were not available in CA records and could not be collected during the survey interview, those outcomes are designated as 'n/a' at the statewide and regional center levels.

To find out more about the development of In-Person Survey, data analysis and state samples, check out the National In-Person Report: <https://idd.nationalcoreindicators.org/survey-reports-insights/report-library/>

Important note on Impact of COVID-19

To help better understand the overall impact of COVID-19 on people receiving services, NCI-IDD added a state-optional COVID-19 Supplement to all NCI-IDD Surveys. The COVID-19 Supplement is intended to support the understanding of the experience of people with disabilities and their families at the beginning of the COVID-19 pandemic, and their interactions with services during that time. Regional center data from the COVID-19 Supplement is included at the end of this report and in the California Statewide report.

Demographic Characteristics of Respondents

This section presents descriptive information on the respondents surveyed.

Important Note on Missing Data:

For several states and regional centers, survey items in the Background Information section (including certain items related to Demographics, Health, Medication, and Wellness) had a large amount of missing data or data recorded as “don’t know.”

Detailed information by state can be found in the NCI-IDD National In-person Survey Report:

<https://www.nationalcoreindicators.org/resources/reports/>

The quantity of missing data can be a result of several factors. We do not know whether the data are missing systematically or randomly; for example, are data missing across the board for those in a specific waiver population in a given state? If so, the resulting data are not representative of the entire sample or population. We advise caution when examining data that are indicated as having high rates of “missing” or “don’t know” responses. Please note that the NCI-IDD average reflects the average of data that were reported to NCI-IDD and may not be reflective of the service population across the country.

Table 1. Age

Regional Center	Mean	N
HRC	37.7	411
CA Average	40.7	8,663
Weighted NCI-IDD Average	41.4	19,912

Table 14. Preferred Means of Communication

Regional Center	Spoken	Gestures	Sign language	Communication device	Other	Don't know	N
HRC	70%	30%	0%	0%	0%	0%	410
CA Average	66%	33%	0%	0%	1%	0%	8,648
Weighted NCI-IDD Average	75%	20%	1%	1%	2%	0%	19,817

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% "don't knows" and missing data

*NCI-IDD Average includes data from states that had at least 25% "don't knows" and missing data

Regional Centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average.

Table 15. Preferred Language

The standard NCI-IDD IPS only include response options “English” and “Other”; CA adds several language categories

Regional Center	English	Spanish	Mandarin	Tagalog	Vietnamese	Korean	Arabic	N
HRC	77%	19%	0%	1%	0%	1%	0%	410
CA Average	80%	17%	0%	1%	1%	0%	0%	8,586
Weighted NCI-IDD Average	93%	n/a	n/a	n/a	n/a	n/a	n/a	19,685

Table 16. Preferred Language (Continued)

The standard NCI-IDD IPS only include response options “English” and “Other”; CA adds several language categories; NCI-IDD’s “Other” category includes all of the other languages (except English) listed for CA

Regional Center	Armenian	Farsi	Hmong	Khmer	Laos	Russian	ASL	Other	N
HRC	0%	1%	0%	0%	0%	0%	0%	0%	410
CA Average	0%	0%	0%	0%	0%	0%	0%	0%	8,586
Weighted NCI-IDD Average	n/a	n/a	n/a	n/a	n/a	n/a	n/a	2%	19,685

Table 17. Mobility

Regional Center	Moves self around environment without aids	Moves self around environment with aids or uses wheelchair independently	Non-ambulatory, always needs assistance to move around environment	Don't know	N
HRC	77%	12%	11%	0%	410
CA Average	74%	12%	13%	1%	8,522
Weighted NCI-IDD Average	76%	14%	10%	1%	19,669

Table 18. Support Needed to Manage Self-Injurious Behavior

Regional Center	None	Some	Extensive	Don't know	N
HRC	78%	19%	2%	0%	411
CA Average	78%	19%	2%	0%	8,628
Weighted NCI-IDD Average*	76%	18%	5%	1%	19,063

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% “don’t knows” and missing data

*NCI-IDD Average includes data from states that had at least 25% “don’t knows” and missing data

Regional Centers receive an ‘n/a’ designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average.

Table 19. Support Needed to Manage Disruptive Behavior

Regional Center	None	Some	Extensive	Don't know	N
HRC	47%	37%	16%	0%	411
CA Average	49%	30%	21%	0%	8,628
Weighted NCI-IDD Average*	53%	28%	12%	7%	19,161

Table 20. Support Needed to Manage Destructive Behavior

Regional Center	None	Some	Extensive	Don't know	N
HRC	67%	26%	6%	0%	411
CA Average	69%	25%	6%	0%	8,628

Table 21. Level of Guardian/Conservatorship

Regional Center	None	Limited guardian/ conservatorship	Full guardian/ conservatorship	Has guardian/ conservator, but unable to distinguish level	Don't know	N
HRC	88%	10%	2%	0%	0%	410
CA Average	81%	18%	0%	0%	0%	8,649
Weighted NCI-IDD Average	53%	10%	27%	8%	2%	19,826

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% "don't knows" and missing data

*NCI-IDD Average includes data from states that had at least 25% "don't knows" and missing data

Regional Centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average.

Choice and Decision-Making

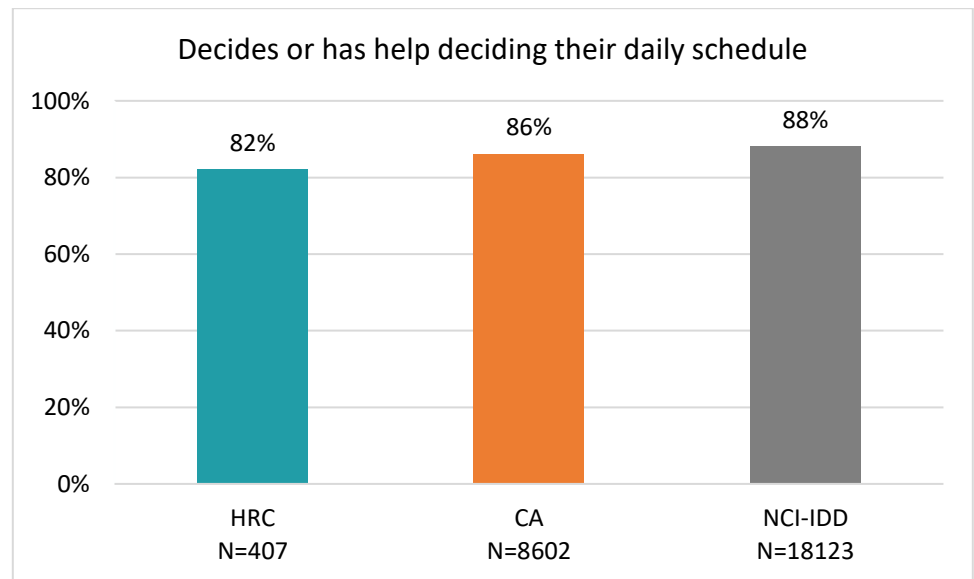

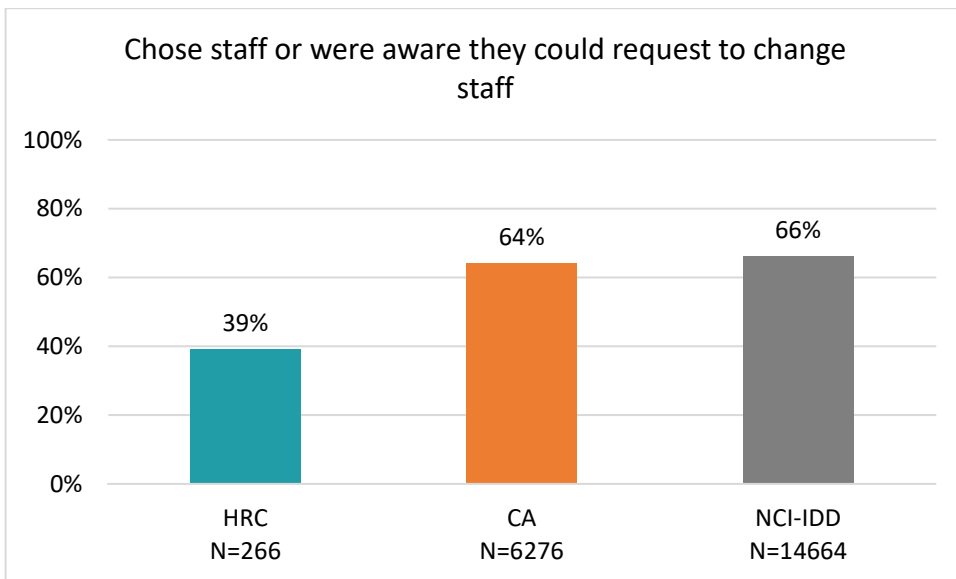

People make choices about their lives and are actively engaged in planning their services and supports.

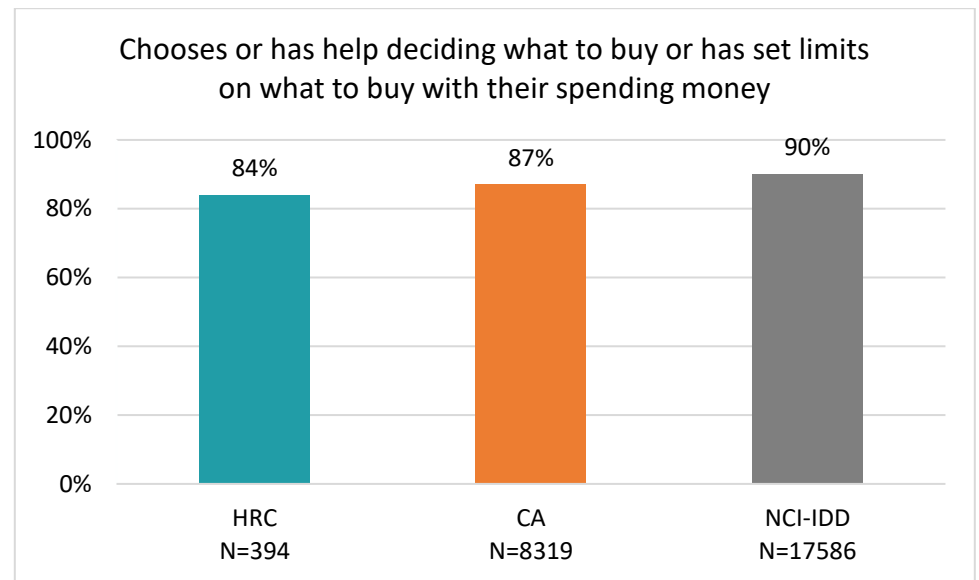

Note: CA statewide and NCI-IDD averages for all but one item (Chose Service Coordinator) in this chapter is risk adjusted. Risk (or “outcome”) adjustment is a statistical process that helps “level the playing field” by controlling for differences in the individual characteristics of people who completed the IPS. This analysis helps account for the fact that states have different eligibility definitions for services and may have samples with different characteristics.

The indicators are risk-adjusted using the following characteristics: age, level of intellectual disability, level of mobility, and whether any behavioral supports are needed to prevent self-injury, disruptive, or destructive behavior.

All CA and NCI-IDD Averages are weighted unless otherwise noted.

Charts for Choice and Decision-Making

Table 22. Chose or had some input in choosing where they live *if not living in the family home*

CA and NCI-IDD averages are risk adjusted; proxy respondents were allowed for this question

Regional Center	Yes	No	N
HRC	49%	51%	144
CA Average	48%	52%	3,856
Weighted NCI-IDD Average	56%	44%	9,356

Table 23. Chose or had some input in choosing their housemates *if not living in the family home*, or chose to live alone

CA and NCI-IDD averages are risk adjusted; proxy respondents were allowed for this question

Regional Center	Yes	No	N
HRC	26%	74%	149
CA Average	38%	62%	3,906
Weighted NCI-IDD Average	45%	55%	9,453

Table 24. Chose staff or were aware they could request to change staff

CA and NCI-IDD averages are risk adjusted; proxy respondents were allowed for this question

Regional Center	Yes	No	N
HRC	39%	61%	266
CA Average	64%	36%	6,276
Weighted NCI-IDD Average	66%	34%	14,664

Community Inclusion, Participation and Leisure

People have support to participate in everyday community activities.

Note: These data were collected between July 1, 2020 and June 30, 2021. State and provider-level restrictions around COVID-19 as well as individual preference may significantly impact outcomes reported in this chapter.

All CA and NCI-IDD Averages are weighted unless otherwise noted.

Charts for Community Inclusion, Participation and Leisure

Went out shopping at least once in the past month

Went out on errands at least once in the past month

Went out for entertainment at least once in the past month

Went out to eat at least once in the past month

Went out to religious service or spiritual practice at least once in the past month

Participated as a member in a community group

Went on vacation in the past year

Able to go out and do the things like to do in the community

Health

People secure needed health services.

For several states and regional centers, survey items in the Background Information section (including certain items related to Health) had a large amount of missing data or data recorded as “don’t know.” State and regional center review of the data in this section noted that the data missing may not be missing randomly, and results **should be viewed with caution**. NCI-IDD averages that include states’ results for which 25% or more of their sample were missing data (or reported as “don’t know”) are indicated with an asterisk (*). CA averages that include regional centers’ results for which 25% or more of their sample were missing data (or reported as “don’t know”) are indicated with a double asterisk (**).

The quantity of missing data can be a result of several factors. We do not know whether the data are missing systematically or randomly; for example, are the data missing across the board for those in a specific waiver population in a given Regional Center? If so, the resulting data are not representative of the entire sample or population. We advise caution when examining data that are indicated as having high rates of “missing” or “don’t know” responses.

All CA and NCI-IDD Averages are weighted unless otherwise noted.

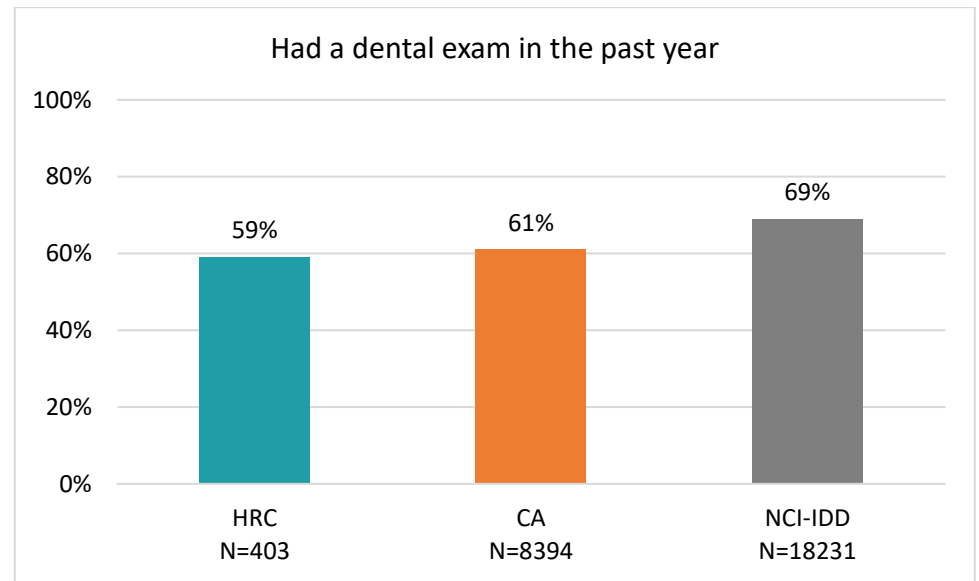

Charts for Health

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% “don’t knows” and missing data

*NCI-IDD Average includes data from states that had at least 25% “don’t knows” and missing data

Regional Centers receive an ‘n/a’ designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% "don't knows" and missing data

*NCI-IDD Average includes data from states that had at least 25% "don't knows" and missing data

Regional Centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% "don't knows" and missing data

*NCI-IDD Average includes data from states that had at least 25% "don't knows" and missing data

Regional Centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

Last colorectal cancer screening (among people age 50 and older)

Had a flu vaccine in the past year

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% "don't knows" and missing data

*NCI-IDD Average includes data from states that had at least 25% "don't knows" and missing data

Regional Centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

Categories are not mutually exclusive

Regional Center	Facebook post	Instagram post	Twitter post	WhatsApp message	Direct mail	Other	N
HRC	1%	1%	0%	1%	35%	13%	242
CA Average	1%	0%	0%	0%	39%	11%	5,012

Table 124. Do your staff support you in a way that is respectful to your culture?

Regional Center	Yes	Sometimes or some staff	No	N
HRC	94%	4%	1%	138
CA Average	97%	2%	1%	3,327

Table 125. Did you get a copy of your IPP in your preferred language?

Regional Center	Yes	No	N
HRC	95%	5%	134
CA Average	91%	9%	3,089

CA averages in this section are not weighted

Table 126. If you participate in religious or spiritual practice (either in person or online), did you choose the religious service or spiritual practice?

Regional Center	Yes	No	N
HRC	73%	27%	98
CA Average	77%	23%	1,995

CA averages in this section are not weighted

COVID-19 Supplement

In response to the COVID-19 pandemic, NCI-IDD added a state-optional COVID-19 Supplement to all NCI Surveys. The COVID-19 Supplement is intended to support the understanding of the experience of people with disabilities and their families at the beginning of the COVID-19 pandemic, and their interactions with services during that time.

All CA and NCI-IDD Averages are weighted unless otherwise noted.

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% “don’t knows” and missing data

*NCI-IDD Average includes data from states that had at least 25% “don’t knows” and missing data

Regional centers receive an ‘n/a’ designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

Charts for COVID-19 Supplement

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% “don’t knows” and missing data

*NCI-IDD Average includes data from states that had at least 25% “don’t knows” and missing data

Regional centers receive an ‘n/a’ designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% "don't knows" and missing data

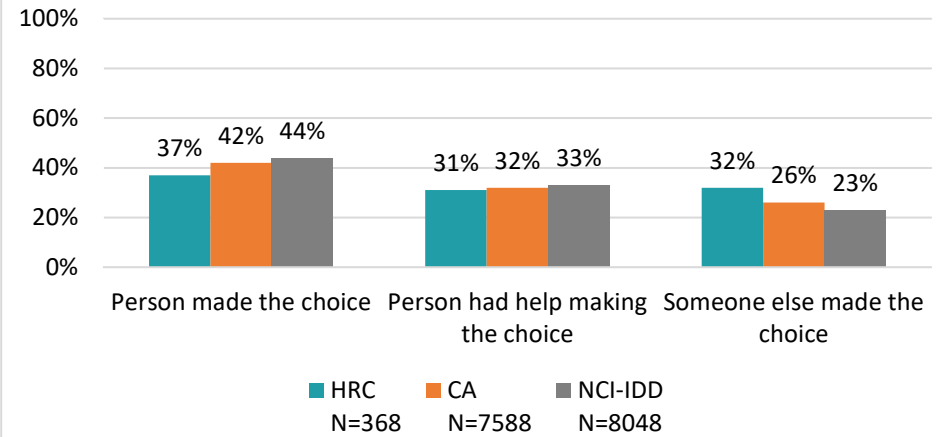

*NCI-IDD Average includes data from states that had at least 25% "don't knows" and missing data

Regional centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

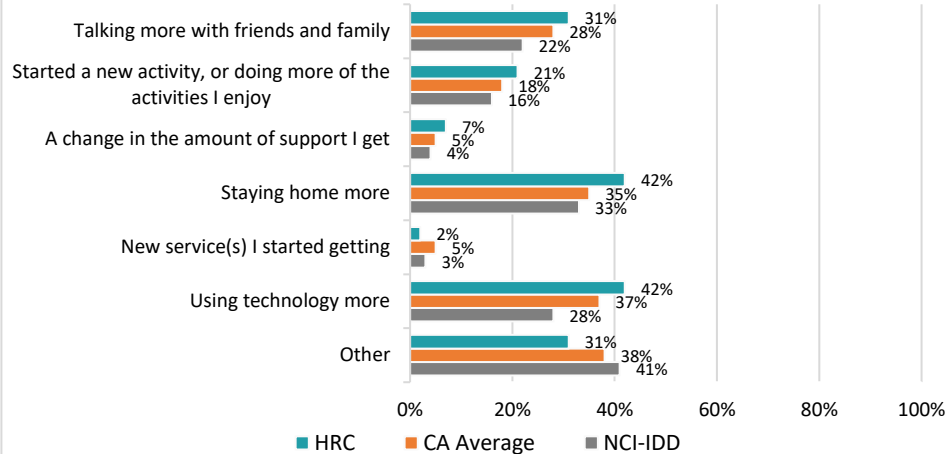

During COVID time, did any of these changes occur? (Continued)

During COVID time, if there were changes in your daily schedule, did you get to choose your new daily schedule?

Think of how your life and daily routine changed since the beginning of COVID time. Have there been any changes that you liked?

Is there a computer, tablet (iPad or similar), or smartphone that you can use in your home?

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% "don't knows" and missing data

*NCI-IDD Average includes data from states that had at least 25% "don't knows" and missing data

Regional centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

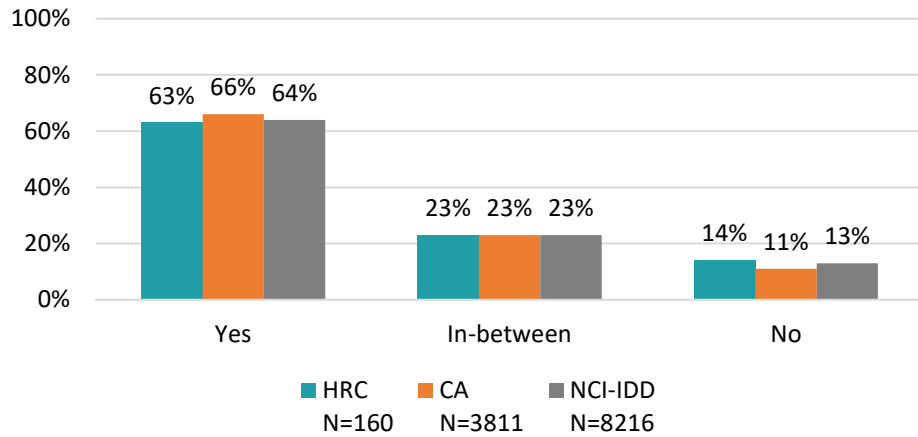

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% "don't knows" and missing data

*NCI-IDD Average includes data from states that had at least 25% "don't knows" and missing data

Regional centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

Think about talking to health professionals with videoconference or telehealth. Did you like it?

Since the start of COVID time, did you do any of the following services using videoconference technology like Skype, Zoom or FaceTime?

If you did any services over videoconference or telehealth, did you like doing services over video conference or telehealth?

Since COVID time started, have you talked to your service coordinator enough?

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% "don't knows" and missing data

*NCI-IDD Average includes data from states that had at least 25% "don't knows" and missing data

Regional centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% "don't knows" and missing data

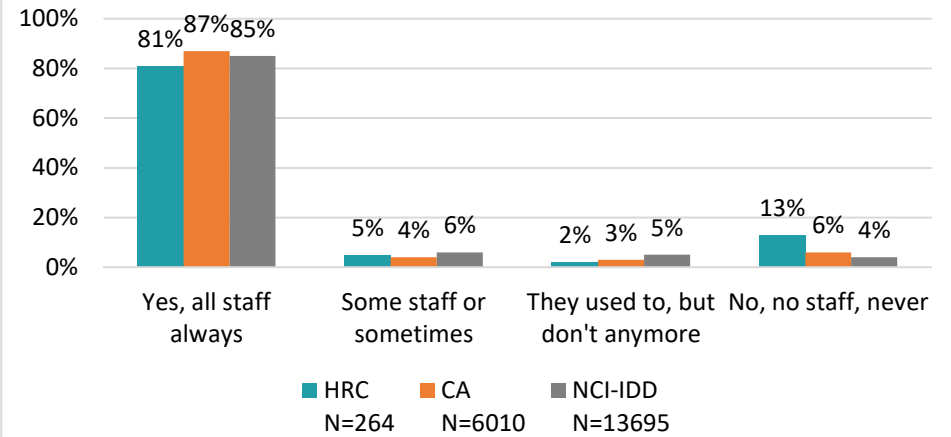

*NCI-IDD Average includes data from states that had at least 25% "don't knows" and missing data

Regional centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

Do you need more help or reminders to stay far enough away from people when you're out in the community, so germs don't spread?

Since COVID time started, have your staff used personal protective equipment (PPE)

Since COVID time started, have you been more worried, scared, anxious, or sad than before?

Do you want help to feel less worried, scared, anxious or sad?

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% "don't knows" and missing data

*NCI-IDD Average includes data from states that had at least 25% "don't knows" and missing data

Regional centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% "don't knows" and missing data

*NCI-IDD Average includes data from states that had at least 25% "don't knows" and missing data

Regional centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

Table 127. Has this person ever been diagnosed or presumed diagnosed with COVID-19?

Information may have been obtained through administrative records

Regional Center	Yes	No	N
HRC	13%	87%	55
CA Average	11%	89%	626
Weighted NCI-IDD Average	10%	90%	10,093

Table 128. Has this person ever required in-patient hospitalization due to COVID -19?

Information may have been obtained through administrative records

Regional Center	Yes	No	N
HRC	n/a	n/a	n/a
CA Average	6%	94%	70
Weighted NCI-IDD Average	18%	82%	1,058

Table 129. Have you heard of COVID-19 (also known as coronavirus)?

Regional Center	Yes	Maybe	No	N
HRC	93%	1%	6%	267
CA Average	94%	2%	4%	5,455
Weighted NCI-IDD Average	92%	2%	6%	11,813

All CA and NCI-IDD Averages are weighted unless otherwise noted

**CA Average had at least 25% "don't knows" and missing data

*NCI-IDD Average includes data from states that had at least 25% "don't knows" and missing data

Regional centers receive an 'n/a' designation within the table if 20 or fewer people responded to the survey item; however, their data are included in the CA Average

Table 130. During COVID time, did any of these changes occur?

Proxy respondents were allowed for this question; categories are not mutually exclusive

Regional Center	Moved or changed where they live	Changes in in-home supports (if person did not move)	Stopped going to in-person day program workshop or other unpaid day or community activity	Went fewer hours to day program, workshop or other unpaid day or community activity	Stopped working at paid community job	N
HRC	4%	15%	65%	22%	12%	409
CA Average	4%	12%	58%	18%	11%	8,635
Weighted NCI-IDD Average	4%	8%	38%	17%	12%	17,854

Table 131. During COVID time, did any of these changes occur? (continued)

Proxy respondents were allowed for this question; categories are not mutually exclusive

Regional Center	Worked fewer hours at paid community job	Saw family or friends (who don't live with person) less often or stopped seeing in person	Went into community less often or stopped going	Stopped going to school in person	Other	None of the above	N
HRC	4%	67%	87%	13%	23%	2%	409
CA Average	4%	69%	87%	12%	15%	2%	8,635
